THE TOWABLE TRUCKHOE

Advantages Over Conventional Backhoes

The Towable Truckhoe

THE TOWABLE TRUCKHOE IS:

- Towable at highway speeds...
- With a half-ton truck...
- With no need for a trailer
- Self-propelled at the work site
- Easy to hitch and unhitch and...
- It won't track up grass

POWERFUL...

- With 6,000 lbs. of digging force
 - 11' digging depth
 - Incredible 17' reach
- The Truckhoe is 2 to 3 times more powerful than other backhoes...

MANEUVERABLE...

- Zero-degree turning radius to maneuver around objects
- Easily slips into backyards!

Conventional Backhoe

CONVENTIONAL BACKHOES REQUIRE:

- Extra expense to rent a trailer
- A larger truck for towing
- More time to load and unload
- Delivery by rental equipment companies

Other backhoes that can be towed, have only a fraction of the digging depth, reach and digging force

Conventional backhoes are impossible to move in tight spaces.
